## Draw Procedure

- The draw starts with Pot 4 from where a team is drawn and assigned to the first available group (in alphabetical order);
- To determine the position of the drawn team within the group, a ball is drawn from the relevant bowl, e.g. "Group C" to determine the position within the group (C1, C2, C3 or C4).
- The next ball is drawn to be assigned to the next available group; again, a ball is drawn from the relevant bowl containing the group positions; the same procedure is repeated until every team from Pot 4 has been assigned to a group and been given a position in the group in question.
- Once Pot 4 has been emptied, the draw continues with Pot 3 then Pot 2 and concludes with Pot 1.
- Draw conditions apply as follows:
  - Hungary is assigned to position A1 and Slovenia is assigned to position B1. When drawing the teams from pot 4, the groups A and B are therefore not available for the two other teams in this pot.

## Match schedule

The match sequence is defined in the competition regulations (article 17). After the final draw, UEFA issues the updated match schedule indicating in which venue the group matches will be played and the kick-off time of all matches.
