

# UEFA EURO 2020 Anti-Doping Charter

UEFA's mission is to have a clean, safe and fair UEFA EURO 2020. To this end, a UEFA EURO 2020 anti-doping programme has been established to safeguard the integrity of the tournament by ensuring that all participating teams and players are subject to comprehensive, robust and scientifically advanced testing and analysis.

## Pre-tournament testing

Players from the 24 teams will be subject to specific target testing from the beginning of 2021 until the start of the tournament as part of the pre-tournament testing programme. Tests will take place both in- and out-of-competition, when players are with their respective national teams and during UEFA club competitions. Blood and urine samples will be collected.

This testing will be conducted in close cooperation with the national anti-doping organisations of the participating countries and with FIFA.

## Final tournament testing

Doping controls will be conducted at all 51 UEFA EURO 2020 matches, with at least four players (two from each team) selected to provide blood and urine samples after each match. Teams may also be subject to out-of-competition testing between matches.

## Analysis

Blood and urine samples will be analysed by WADA-accredited laboratories using the latest analytical techniques. Tested players will also be included in the athlete biological passport programme which can indirectly reveal the effects of doping. All samples will be securely stored for up to 10 years to allow re-analysis at any time.

## Pledge

As the team doctor of my national association, I fully support UEFA's strategy to keep football free from doping and will take all the necessary steps within my association to educate players and staff members and to help UEFA to achieve its goal of a clean UEFA EURO 2020.

By signing below, I confirm that I will use my influence on player values and behaviour to foster anti-doping attitudes within my team. I agree to take the necessary steps to be knowledgeable of and comply with the UEFA Anti-Doping Regulations and the UEFA testing programme. I confirm that I will not use or possess a prohibited substance or method during the UEFA EURO 2020 without valid justification, in accordance with the applicable regulations.
