UEFA Club Licensing and Financial Sustainability Regulations (Edition 2022)

Dear Sir or Madam,

The UEFA Executive Committee approved minor clarifications and corrections to the 2022 regulations at its meeting in Nyon on 25 January.

The latest version improves the understanding of Annexes F, J and K. The clarifications and corrections include:

1. Minor clarifications and corrections to wording and references [Annexes F.3.1, F.4.1, J.1.1, J.1.2, J.2.1, J.3.1, K.2.2]
2. Removal of two paragraphs that were printed twice by mistake [Annex J.3.1]
3. Updated date of approval and entry into force [Article 102 and Article 104].

These minor clarifications and corrections were supervised and approved by the members of the UEFA Club Licensing Committee and came into force with immediate effect on 25 January 2023.

If applicable, the changes must be incorporated into your national club licensing regulations, approved by the competent national bodies and communicated to licence applicants.

The details of the clarifications and corrections are enclosed along with the full revised regulations in PDF format.

Should you have any queries or require additional information, please contact UEFA's head of club licensing, Aleš Zavrl (clublicensing@uefa.ch), or the head of financial sustainability, Philippe Rasmussen (fs.support@uefa.ch).

Yours faithfully,

U E F A

Theodore Theodoridis
General Secretary
